DX Code of Conduct

This work, identified by Serge Y. Stroobandt, is free of known copyright restrictions.

As a reference for myself, and for all those engaged in amateur radio, here is a copy of the DX code of conduct. You are encouraged to copy it wherever you like. To make things clearer, I numbered each rule of conduct and highlighted the most important parts.

1. I will listen, and listen, and then listen agai before calling.
2. I will only call, if I can copy the DX statio properly.
3. I will not trust the DX cluster and will be sure c the DX station's call sign before calling.
4. I will not interfere with the DX station nor anyon calling and will never tune up on the D frequency or in the QSX slot.
5. I will wait for the DX station to end a contac before I call.
6. I will always send my full call sign.
7. I will call and then listen for a reasonable interva I will not call continuously.
8. I will not transmit when the DX operator call another call sign, not mine.
9. I will not transmit when the DX operator querie a call sign not like mine.
10. I will not transmit when the DX station request geographic areas other than mine.
11. When the DX operator calls me, I will not repea my call sign unless I think he has copied incorrectly.
12. I will be thankful if and when I do mak a contact.
13. I will respect my fellow hams and conduc myself so as to earn their respect.

There is also an expanded version in English, containing many useful hints.
